

This animal is a:
Cheetah (English)
Ihlosi (Ndebele)
Dindingwe (Shona)

Colour your Cheetah

Cheetah Conservation
Project
Zimbabwe

Did you know that:

Cheetahs have a long legged slender body which is built for speed, they can run as fast as 100 kilometres per hour

Cheetahs have more than 2000 spots on their coat

Cheetahs can purr like your cat

Cheetahs have very good eyes, they can spot their prey from 5 kilometres away

Cheetahs have never attacked humans

Cheetahs hunt during the day

The black stripes next to the cheetahs eyes are called tear marks, they act like sunglasses and reduce the glare from the sun
